89.7fm

COMPLETE  
CONSTRUCTIONAL  
DETAILS  
OF  
THE  
1998  
SPRING  
PROGRAM  
SCHEDULE

Published by the Intergalactic Analogue Research and Body Without Organs

your source for sound

hello everybody...

(cough...)

kfjc offers its broadcast to you, our beautiful public in every way...

thanks to staff efforts we now simulcast kfjc live on the world wide web...

with not one but two internet streaming wonders, both very cool, very global and very cost effective...

please, computer abled silicon folk, connect to [www.kfjc.org](http://www.kfjc.org) and test, react, enjoy...

the internet possibilities are unstoppably super open, (though often obscured by media consultant smog and analyst gas)...

in fact, the fcc is accepting public comment on the proposal to open up a section of the broadcast spectrum to legal, local micro-transmitters, (first come first serve)...

when little neighborhood pirate stations are pirate no more, but given a home on the dial by the feds, you have no excuse not to take part in the radio devil's army...

consider this written permission to pick up our signal and re-broadcast the beloved 89.7 fm electromagnetic wave...

exponentially spread kfjc from your modem or receiver to your city-block-wide station...

kfjc's invisible death rays will go on, and on, and on eternally with your help...

friend to friend...

world conquest and you, not too much to ask...

don't forget, oh technologically limited, we're always high atop black mountain programming for ye good ol' fashioned radio set...

tell a fiend, it's a growth black market...

strength through peace...

donate, take the class, listen, re-broadcast...

your humble servant and kfjc g.m....

alex zisch...
